## PHOTOSTORY 3

Make show and tell cool again!

**Capture memories**  
Create slideshows using your digital photos. With a single click, you can touch up, crop, or rotate pictures. It's that easy!

**Bring photos to life**  
Add exciting special effects, soundtracks, and your own voice narration to your photo stories. Then, personalize them with titles and captions.

**Share your stories**  
Send a photo story to a friend or post it online. You can even watch them on your TV, a computer, or a Windows Mobile-based portable device.
